Prerequisite 1–2 Credits 1–7					

Sustainable Sites

Not applicable

SS	WE	EA	MR	EQ	ID
Prerequisite 1–2 Credits 1–3					

Water Efficiency

Not applicable

SS	WE	EA	MR	EQ	ID
Prerequisite 13 Credits 1–6					

Energy and Atmosphere

Credit 1

Optimize Energy Performance

10 points

Task lighting may contribute to this credit. Herman Miller task lights use high efficiency electronic ballasts and energy efficient lamps that can help to reduce the overall lighting power required for the building.

Prerequisite 1–2 Credits 1–6					

Material and Resources

Credit 1

Construction, Demolition, and Renovation Waste Management

2 points

Vivo interiors may contribute to this credit through the use of recyclable packaging. Vivo interiors packing materials include corrugated cardboard, molded pulp, expanded polystyrene foam. These materials are recyclable in many markets which can help reduce landfill. Bulk packs also reduce the amount of packing material required.

Credit 2

Optimize Use of Alternative Materials

5 points

Vivo interiors may be able to contribute to the criteria for salvaged material, recycled content, rapidly renewable materials, FSC certified wood and local/regional materials. Vivo interiors is designed for durability with a comprehensive 12-year warranty and is easily reconfigured during renovation projects. Vivo interiors contains 14% post-consumer recycled content and 22% post-industrial recycled content. Woodstalk wheat board can be used as the worksurface substrate which is a rapidly renewable formaldehyde-free product. Depending on location, Vivo interiors can be a local material.

Prerequisite 1–4 Credits 1–10.6					

Indoor Environmental Quality

Credit 8.1

Daylight and Views—Day lighting for 50% of spaces

1 point

Vivo interiors may contribute to this credit through the use of transparent materials and low frame heights. Vivo interiors low panel heights and transparent materials allow daylight and outdoor views to reach building occupants.

Credit 8.2

Daylight and Views—Day lighting for 75% of spaces

1 point

Vivo interiors may contribute to this credit through the use of transparent materials and low frame heights. Vivo interiors low panel heights and transparent materials allow daylight and outdoor views to reach building occupants.

Credit 8.3

Daylight and Views—Day lighting for 40% of spaces

1 point

Vivo interiors may contribute to this credit through the use of transparent materials and low frame heights. Vivo interiors low panel heights and transparent materials allow daylight and outdoor views to reach building occupants.

Credit 8.4

Daylight and Views—Day lighting for 80% of spaces

1 point

Vivo interiors may contribute to this credit through the use of transparent materials and low frame heights. Vivo interiors low panel heights and transparent materials allow daylight and outdoor views to reach building occupants.
