

 **Herman Miller**

**The Avive® Table Collection**

### **SIMPLE TABLES THAT DO IT ALL**

The Avive table collection brings a workspace to life, helping cost-conscious companies keep pace with the speed of work and change. Mobile and agile, these table desks and multipurpose tables can integrate with Herman Miller systems furniture or stand alone. Avive products can cover a broad range of applications and bring a refined, consistent look to an entire facility. They can be grouped together or used on their own, quickly reconfigured or kept in place—whatever teams, individuals, or collaborators need.

### A COMPREHENSIVE LINE

Table desks, which serve as primary work surfaces, are the heart of the Avive collection. Table extensions connect to primary surfaces to create a wide variety of configurations. Tables are for small meetings and collaboration. All surfaces are offered in many shapes, sizes, and finish choices to meet aesthetic and functional needs.

Most come with casters or glides and are pin-height adjustable.

### FREESTANDING FLEXIBILITY FOR SYSTEMS

The Avive table collection is designed to integrate with Herman Miller's Ethospace®, Resolve®, Prospects®, Vivo™, and Action Office® systems. It can be used instead of panel-hung work surfaces inside workstations, and as places to get together outside workstations. Either way, Avive products help companies manage their systems environments more efficiently.

### A SOUND INVESTMENT

The Avive table collection is strong and durable for a long, productive life. Available on casters or glides, Avive table desks and tables install and reconfigure quickly and easily so companies can handle change and churn more economically.

### MULTIPLE APPLICATIONS

Because they are freestanding, table desks can be easily installed in panel-based workstations. They can be positioned off-module to increase planning options and simplify change. Reconfiguration is easier and takes less time than system work surfaces because panels stay undisturbed and there's less disruption.

To create a project area or team space, Avive products can be positioned as needed along a spine wall. Table desks and tables can be quickly repositioned as group or individual work changes.

The Avive collection can stand apart from workstations. It can be moved together or separated for impromptu meetings, conferencing, collaboration, work surface extensions, or war room/project room applications.

Table desks and tables can also be used independent of systems furniture in a private office, open plan, team area, or other totally freestanding environments.

## CLEAN AND ELEGANT

Designed by Jeff Weber, of Stumpf/Weber + Associates, the Avive table collection is a cohesive line with a consistent, unified aesthetic. The straightforward, honest design emphasizes function, flexibility, and affordability.

Jeff Weber

All Avive products have crisp lines and simple understructures so they fit visually with Herman Miller systems products and a range of interiors. The curvilinear shapes have an organic, contemporary look. A broad color and finish palette complements the Herman Miller systems palette.

Surfaces are available in squared-edge laminate, contoured-edge laminate, Formcoat®, and squared-edge veneer, including a selection of eight premium Geiger® veneers.

## 12-YEAR, 3-SHIFT WARRANTY

Like all Herman Miller products, the Avive table collection is durable for long-term performance and value. As a statement of our confidence in its quality, Avive is covered by the Herman Miller Warranty—a straightforward promise that we stand behind that quality 100 percent. The 12-year, 3-shift warranty is unconditional, covers all standard elements, and includes labor on all warranty work.

## EASY OPTIONS<sup>SM</sup> CAPABILITY

Our versatile, flexible products give people real choices. If they need something extra, we can do that, too, from modifying existing products to developing new ones. For more information on our Easy Options capability, please visit [www.HermanMiller.com/easyoptions](http://www.HermanMiller.com/easyoptions).
