Limerick® Chairs

STACKABLE COMFORT

Limerick chairs are right up there. They stack 10 high on the floor or 36 high on the specially designed cart. Fortunately, their price is down to earth and their design well grounded in comfort. Designer Tom Newhouse gave Limerick a flexible back that provides lumbar support and subtle movement, and he made its seat wider and back higher than most comparable chairs. He also designed an open sled base with no braces to get in the way of tucked feet. And he made Limerick lightweight, so it can stack high, link together in neat rows, or move quickly into place to give guests a comfortable seat during impromptu meetings.

Tom Newhouse

FEATURES THAT ADD UP

Limerick chairs show up in so many places because they deliver so much value for such a reasonable price.

The higher-than-expected back provides added comfort and lumbar support.

An opening in the chair back increases ventilation and makes the chair easy to carry.

Double front crossbars raised out of the way of ankles make the chair exceptionally sturdy.

Shells are available in 8 colors, frames in 4 colors.

The chairs are lightweight and easy to move and stack.

All parts of Limerick chairs are 100 percent recyclable.

Limerick Chair

12-YEAR, 3-SHIFT WARRANTY

Like all Herman Miller products, the Limerick chair is durable for long-term performance and value. As a statement of our confidence in its quality, the Limerick chair is covered by the Herman Miller Warranty—a straightforward promise that we stand behind that quality 100 percent. The 12-year, 3-shift warranty covers all standard elements and includes labor on all warranty work.
