Meridian Lounge Seating

Design Issues

1. Coordinated Offer

The Meridian collection includes side chairs, loveseats, benches, bariatric chairs, recliners, gliders, hip chairs, multiple seating, and coordinated tables which share similar details and finish options. A collection approach to healthcare environments supports the design process, allows for comprehensive coordination of interiors, and provides a comforting sense of order.

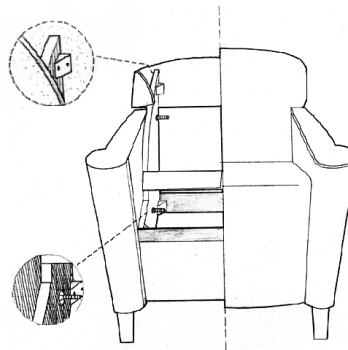

2. High-Density Options

Meridian offers ganged-lounge styles that allow for increased capacity without compromise for seated comfort. In Healthcare spaces, where comfort is often compromised for increased capacity, ganged lounge styles allow for both increased seating positions and exceptional comfort for guests and visitors.

3. Healthcare-Grade Construction

The Meridian collection is constructed to meet the specific demands of healthcare. Premium grade materials, industrial joinery, and construction techniques refined during Brandrud's 50 years as a manufacturer of wood and upholstered furnishings insure long lasting, durable products that meet the demands of healthcare applications.

Meridian Lounge Seating
