DEFIEBRE SEATING SYSTEM™  
SIX ARM OPTIONS | EIGHT BACK OPTIONS | GREENGUARD CERTIFIED

"I THINK OF THIS GROUP AS A MELDING OF PAST AND FUTURE DESIGN IDEAS, A COMING OF AGE WHILE COMING FULL CIRCLE. ORIGINALLY, THESE DESIGNS WERE NOT CREATED AS A COLLECTION, YET OVER TIME, A BEAUTIFUL AND UNIFIED PLATFORM EMERGED."

TIMOTHY DEFIEBRE

"With the introduction of the deFiebre Seating System, we've created a new vocabulary for guest chair options that have never been offered before. Architects and designers now have the ultimate voice in seating specification," designer Timothy deFiebre explains. The deFiebre Seating System assembles six of Geiger's most popular and enduring designs into a cohesive family, each available with any of eight back configurations. The System brings together the best features of each individual design to create a shared platform based on optimal scaling and comfort. All chairs are GREENGUARD-certified and carry Geiger's 12-year warranty.

**FRONT COVER**

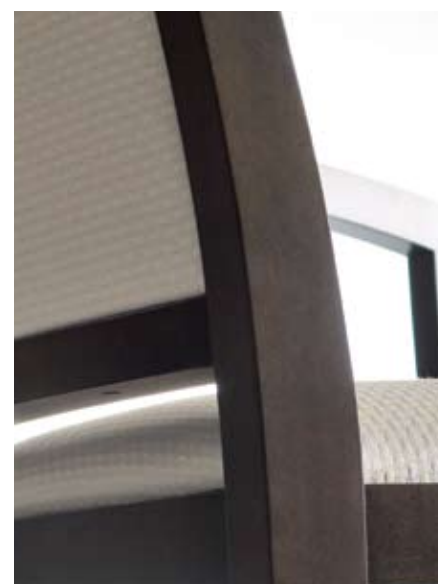

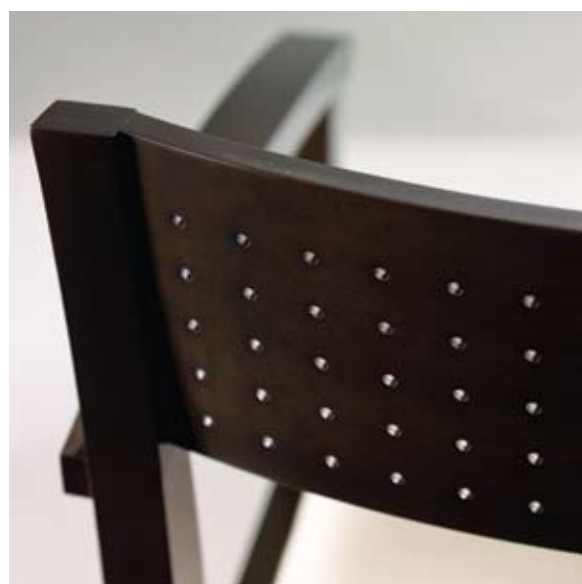

Woven™ with woven inside and outside back

**BACK COVER**

Ansley™ with upholstered inside and outside back

## DEFIEBRE SEATING SYSTEM BY TIMOTHY DEFIEBRE

Timothy deFiebre started his career as a design assistant and model maker for Ward Bennett before becoming the Director of Design at Brickel Associates. deFiebre later became Vice President of Design at Geiger. His award-winning designs are a part of the Permanent Collection of the Cooper-Hewitt National Design Museum and the Chicago Athenaeum.

## DEFIEBRE SEATING SYSTEM | SUPERIOR CRAFTSMANSHIP

deFiebre Seating System chairs feature kiln-dried, premium-grade hard maple frames. State-of-the-art CNC machinery maintains the strictest tolerances in the carving of the frames, ensuring absolute fidelity to the original design as well as consistency from chair to chair. Mortise-and-tenon joinery and grooved corner blocks (glued and screwed in place for maximum reinforcement) ensure structural integrity. All chairs are backed by Geiger's 12-year warranty.

DEFIEBRE SEATING SYSTEM | SIX DESIGNS, EACH WITH A UNIQUE ARM

EIGHT BACK OPTIONS SHOWN ON COLLEGEVILLE™

deFiebre Seating System chair designs focus on elegance, proportion and the use of wood to create different surface textures. Choices include upholstered, woven, solid, pinpoint and wicker. Depending on the design, back heights include full, demi and inset, which incorporates a small space between the back and the seat.
